

Gives me other ideas, this simple notebook. Same old act, the wiggle of the pen, but that in-between is easier — just get from point A to point B and quit worrying about what I might do after that. Like writing on a scroll, a scroll, let it unroll and we'll process later.

Some metaphor in this or that, like a simile I can't put a finger on lest I wave away some smidgen of magic that's inherent in the act lacking evaluation.

Carry on, mosey on, ramble on. Circle the symbol and say and move on. Erase it later.
